

Last Man Standing & Tic Tac Toe

Remember the wooden triangle game of pegs and holes that would keep you busy for hours. Last Man Standing is a one person game that challenges your memory, intelligence, and problem solving skills. You might be surprised at who spots it and stops to play.

Grab an opponent, choose your colors, and have at it with our version of this familiar paper and pencil game. Our Tic Tac Toe Game coordinates with our Last Man Standing.

Have fun!

A love of woodworking and a desire to make quality wood products have inspired us to open our workshop to the public. We have high standards that are reflected in our workshop philosophy guiding us to provide quality products and services to you, our customers.

We take pride in our craftsmanship. All of our products are handcrafted from high quality solid hardwoods, unless otherwise noted. Our wood creations have been finished with 3 coats of Minwax water-based polyacrylic clear protective finish to enhance and maintain the natural beauty of the wood. They are hand rubbed and polished with a quality wood paste wax that adds a smooth finish and provides additional protection to your investment. Our games are handcrafted from Oak, Maple, and our *Limited Edition* Walnut. At the present time, we use hardwoods that are grown primarily here in our "Black Squirrel" Country. The wonderful solid color iridescent marbles included with our games are manufactured in West Virginia by the Marble King Company. We are confident that you will take pride in your purchase.

The Black Squirrel Woodworking Company offers a *Limited Edition* version of most product designs. These *Limited Edition* pieces are labeled with our Company Logo, the number of the piece, and Chuck's Signature. A "Certificate of Authenticity" is also included with each *Limited Edition* piece. At the present time, we are limiting production to 500 of each product offered.
