

# Quality Handcrafted Quilt Hangers

Our quilt hangers were inspired by Grandma Jane's wonderful handmade quilt collection. Everyone in the family has at least one of her lovely quilts. We all want to share them and show them off to our friends and visitors. Chuck was elected to come up with a safe and secure method to display our family treasures. Now we would like to share our quilt hangers with you!

A love of woodworking and a desire to make quality wood products have inspired us to open our workshop to the public. We have high standards that are reflected in our workshop philosophy guiding us to provide quality products and services to you, our customers.

We take pride in our craftsmanship. All of our products are handcrafted from high quality solid hardwoods, unless otherwise noted. Our wood creations have been finished with 3 coats of Minwax water-based polyacrylic clear protective finish to enhance and maintain the natural beauty of the wood. They are hand rubbed and polished with a quality wood paste wax that adds a smooth finish and provides additional protection to your investment. Our Quilt Hangers are handcrafted from Oak, Maple, and our *Limited Edition* Cherry. At the present time, we use hardwoods that are grown primarily here in our "Black Squirrel" Country. We are confident that you will take pride in your purchase.

The Black Squirrel Woodworking Company offers a *Limited Edition* version of most product designs. These *Limited Edition* pieces are labeled with our Company Logo, the number of the piece, and Chuck's Signature. A "Certificate of Authenticity" is also included with each *Limited Edition* piece. At the present time, we are limiting production to 500 of each *Limited Edition* product offered.
